

CIRSA ABUSE RISK MANAGEMENT SEMINARS

FEATURING **JAMIE FRAY** PRAESIDIUM, INC.

Today, municipal officials strive to not only provide basic services to their citizens, but comprehensive programs for children, youth, families, adults, and seniors. While all programs require monitoring and supervision, child, youth, and senior programs can bring unique risks. Management and staff must consider not only the participants' physical safety, but also their safety against sexual and physical abuse.

Praesidium's abuse prevention training is an interactive onsite workshop for personnel in Risk Management,

Community or Human Services, Aquatics, Emergency, Human Resources, City Attorneys, and Libraries. As a participant, you will learn:

- How Offenders Operate
- How to Recognize Red-Flag Behaviors
- Preventing Adult-to-Youth Abuse
- Preventing False Allegations
- How to Screen Applicants for Potential Abuse
- How to Report & Respond

PRESENTED BY

JAMIE FRAY (*Praesidium, Inc.*)

Jamie oversees Praesidium's client growth and works with both new and existing clients to ensure organizations are building safe environments for consumers. Prior to joining Praesidium, Jamie worked with youth in education, in addition to several years in the healthcare field as a pediatric specialist in Physical Therapy. Jamie completed both her bachelor's degree in Health Science and her master's in Physical Therapy at the University of Arkansas.
