## ABOUT

Please join us for an incredibly powerful seminar that will help transform your organization into a team of first responders who can expertly navigate through any challenge that arises in business and in life.

With 27 years as a police officer and the chief who led her department through a mass shooting, Chief Ziman came to learn that the key to confronting the certain uncertainty of a crisis is through preparedness.

Chief Ziman will teach you how to equip your organization for the ever-looming uncertainty by helping your team craft the skillset needed to adapt through a crisis and the mindset to embrace (not brace for) the incoming change.
