

REGIONAL LAW ENFORCEMENT SEMINAR

PREPARING FOR THE UNTHINKABLE

RSVP TODAY

FOR ONE OF THREE EVENTS!

Presented by:

Kristen Ziman | Former Aurora IL Police Chief
(Speaker, Author, Leader & Change Agent)

In an unpredictable world, the looming shadow of crises poses significant challenges for organizations.

Chief Ziman, a seasoned police officer with 27 years of experience, has witnessed firsthand the importance of preparedness. From leading her team during a mass shooting to advising international bodies on mass violence, Chief Ziman believes that confronting uncertainties lies in being prepared. In her session, she'll share strategies to fortify your organization against unforeseen challenges, emphasizing the need for the right skillset and a welcoming approach to change.

Chief Ziman will share how the role of empowerment in organizational culture is paramount. It amplifies performance, fosters trust, and nurtures collaboration. An empowered, engaged employee, connected to the organization's mission, is invariably more productive. Open communication, skill enhancement, and adaptability are the pillars of a strong, resilient organizational culture.
