

## REGIONAL SEMINARS

# INCIDENT & INJURY PREVENTION SEMINAR

CIRSA's Injury Prevention Seminar will assist members in the development and basic administration of an overall safety & health program. Our multiple speakers will cover the topics listed below in a methodology that will allow you to use the information to build and/or improve your new or existing programs. From developing a training program matrix to following up on all injuries via an incident investigation process, we are certain these seven modules will be of value to your continuous improvement efforts.
